

Big traffic, safety moves on N. Virginia

“They” are pulling out all of the stops up here on the North Virginia Street approach to the North Valleys. Granite, SNC, Parr Electric are working some magic on North Virginia near Talus, Moraine, Parr Boulevard and the Bonanza Casino. Governor Sandoval got these projects started after the death of one of his friends near the casino. One would have thought UNR was playing UNLV at the Bonanza due to the cars lined up along North Virginia at the kickoff to Hot August Nights, just from the new crosswalk signals. Now, with the new magic, maybe the two teams can play directly, and safely, on North Virginia Street. Please look into the magic when you have some time.
