Criticism of Lucey disappointing

Recently there have been criticism and recall signs for District 2 County Commissioner Bob Lucey. Very disappointing. I find Commissioner Lucey to be an excellent family man, with honesty and integrity. We may not agree on all issues, but he is responsive and accessible. He does not duck any issue, he will discuss them in a well-researched professional manner.

The Truckee Meadows is in a huge economic growth boom. The area has struggled for years and we should be grateful for the new development. Some do not like change but when developers are willing to work with their surrounding communities and tailor their plans to the needs of the majority, very beneficial to all concerned. Commissioner Lucey is doing his best to make sure that this is happening.

Many of us in District 2 appreciate the job he is doing to keep our community viable. Thank you for your continued efforts, commissioner.
